Thermal Processing System and Configurable Vertical Chamber
Filed On: July 10, 2003 (Int'l Filing Date)
Our File No.: A-71748/MSS (463035-770)

Dear Jeff:

Further to my letter of September 22, 2006 and subsequent reminders as you know the deadline is fast approaching to submit the Oath in connection with the Notification of Missing Requirements received for the above referenced patent application. Since we have not heard from you we again enclose an additional copy of the above referenced patent application as filed with the United States Patent Office to assist you in your recollection of the filed specification. You may recall, the application was filed with the United States Patent Office on January 14, 2005 and claimed priority to PCT Application Serial No. PCT/US2003/021575.

For your convenience, I have also enclosed a further original of the Declaration and the Assignment for this matter. Please review the application and sign and date the enclosed (updated) Declaration and Assignment documents where indicated. Please note that the signature on the Assignment is to be acknowledged on the notarial form included therewith. It is preferred that the Assignment be notarized, however this is not a requirement.

Please return the executed documents to our Palo Alto office at your earliest convenience and certainly no later than **October 4, 2006**, so that we may file the formal documents with the Patent Office upon receipt.

Please contact me should you have any questions.

Very truly yours,

DORSEY & WHITNEY LLP

ASSIGNMENT

WHEREAS, the undersigned, **Dale R. Du Bois**, a resident of **Los Gatos, California**; **Jamie H. Nam**, a resident of **Scotts Valley, California**; **Craig Wildman**, a resident of **Sunnyvale, California**; **Taiquing Qiu**, a resident of **Los Gatos, California**; and **Jeffrey M. Kowalski**, a resident of **Aptos, California**, (collectively hereinafter termed "Inventors"), have jointly invented certain new and useful improvements in **THERMAL PROCESSING SYSTEM AND CONFIGURABLE VERTICAL CHAMBER**, for which invention we have executed a United States utility patent application, having Serial No. 10/521,619, and filing date of January 14, 2005, and which invention is fully described in the specification pertaining to said application.

WHEREAS, **AVIZA TECHNOLOGY, INC.** (hereinafter termed "Assignee"), a body having corporate powers under the laws in the State of Delaware, having a place of business at **440 Kings Village Road, Scotts Valley, California 95066**, is desirous of acquiring the entire right, title and interest in and to said application and the invention disclosed therein, and in and to all embodiments of the invention, heretofore conceived, made or discovered jointly or severally by said Inventors (all collectively hereinafter termed "said invention"), and in and to any and all patents, inventor's certificates and other forms of protection (hereinafter termed "patents") thereon granted in the United States and foreign countries.

NOW, THEREFORE, in consideration of good and valuable consideration acknowledged by said Inventor to have been received in full from said Assignee:

1. Said Inventors do hereby sell, assign, transfer and convey unto said Assignee, the entire right, title and interest (a) in and to said application and said invention; (b) in and to all rights to apply for foreign patents on said invention pursuant to the International Convention for the Protection of Industrial Property or otherwise; (c) in and to any and all applications filed and any and all patents granted on said invention in the United States or any foreign country, including each and every application filed and each and every patent granted on any application which is a utility, divisional, substitution, or continuation of any of said applications; and (d) in and to each and every reissue or extension of any of said patents; and (e) all claims for damages by reason of past infringement of said patents, with the right to sue for and collect the same for its own use and enjoyment, and for use and enjoyment of its successors, assigns or other legal representatives.
2. Said Inventors hereby covenant and agree to cooperate with said Assignee to enable said Assignee to enjoy to the fullest extent the right, title and interest herein conveyed in the United

States and foreign countries. Such cooperation by said Inventors shall include prompt production of pertinent facts and documents, giving of testimony, execution of petitions, oaths, specifications, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by said Assignee (a) for perfecting in said Assignee the right, title and interest herein conveyed; (b) for prosecuting any of said applications; (c) for filing and prosecuting a utility, divisional, substitute, continuing or additional applications covering said invention; (d) for filing and prosecuting applications for reissuance of any said patents; (e) for interference or other priority proceedings involving said invention; and (f) for legal proceedings involving said invention and any applications therefor and any patents granted thereon, including without limitation opposition proceedings, cancellation proceedings, priority contests, public use proceedings, infringement actions and court actions; provided, however, that the expense incurred by said Inventor in providing such cooperation shall be paid for by said Assignee.

3. The terms, covenants and conditions of this assignment shall inure to the benefit of said Assignee, its successors, assigns and other legal representatives, and shall be binding upon said Inventor, his respective heirs, legal representatives and assigns.

4. Said Inventors hereby warrant and represent that they have not entered and will not enter into any assignment, contract, or understanding in conflict herewith.

Dear Jeff:

Further to my numerous letters and telephone calls to you during the months of January and February 2006, we again attempt to reach you regarding the above referenced patent application. Please find enclosed an additional copy of the above referenced patent application as filed with the United States Patent Office to assist you in your recollection of the filed specification. You may recall, the application was filed with the United States Patent Office on January 14, 2005 and claimed priority to PCT Application Serial No. PCT/US2003/021575.

For your convenience, I have also enclosed a further original of the Declaration and the Assignment for this matter. Please review the application and sign and date the enclosed Declaration and Assignment documents where indicated. Please note that the signature on the Assignment is to be acknowledged on the notarial form included therewith. It is preferred that the Assignment be notarized, however this is not a requirement.

Please returned the executed documents in the enclosed self-address stamped envelope to our Palo Alto office at your earliest convenience and certainly no later than **October 9, 2006**, so that we may file the formal documents with the Patent Office upon receipt.

Please contact me should you have any questions.

Very truly yours,
